Blue diode Laser Technology for advanced surgery

# SUPERIOR PERFORMANCE IN A COMPACT DESIGN

Supremo is the latest cutting-edge blue diode laser device developed by Medency Company to improve the quality of dental surgery.

The particular affinity of the blue light with soft tissue makes Supremo a versatile solution for a more consistent, precise and clear cutting with a great decontamination power of the site at the same time.

Powerful enough to provide instantaneous haemostasis, Supremo is provided with a wide range of accessories to increase the clinical possibilities in dental surgery and decontamination procedures.

**SUPREMO**

Medency is constantly up-to-date on the latest clinical findings and focused on developing innovative laser devices to increase the reliability of the studio and patients' experience.
